

key

our activity

our brands

Net Zero awareness and thought leadership activity

audience 01

Businesses under pressure to plan out and implement a journey to Net Zero.

audience 02

Households with unsustainably high energy costs.

corporate Net Zero consultation and strategy

PNZ Consulting ^(B2B)
 Enterprise level decarbonisation consultation and carbon footprint analysis and mapping.

If carbon deficit remains

PNZ Carbon ^(B2B)
 Localised carbon credits backed by decarbonisation of UK homes and verified social impact.

Verified Carbon Credits
 Originated and issued by PNZ Carbon (in partnership with HACT) for domestic retrofit measures financed by:

- ≥ PNZ Energy and its partner network ("Action Net Zero Credits")
- ≥ Housing associations and local authorities ("Retrofit Credits")

PNZ GROUP
 powering Net Zero

We fund the affordable decarbonisation of British homes from the commercial demand for transparent, localised carbon credits.

affordable domestic decarbonisation projects and energy supply agreements

PNZ Energy ^(B2C)
 Creating social value by making UK homes fit for the future through decarbonisation and energy security.

01. Building fabric and heating system measures
 Installed using partner network.

02. Solar PV - affordable, clean energy UK's first domestic PPA

- ≥ Installed free of charge
- ≥ Costs of consumed energy always below the National Grid
- ≥ Extends affordable green energy to households that could otherwise not afford it

installation of domestic decarbonisation measures financed from carbon credit demand

dynamic response national grid balancing
